

Modplan – giving you exactly what you need!

Modplan has been manufacturing and supplying cutting edge fenestration products to the trade for over 40 years. We are part of the Burles Group plc, which gives us access to a range of complementary business that we can call on to help our customers. It also means we are part of a family-oriented business that offers traditional values coupled with a sound business philosophy that's centred on giving you, our customer, what you need.

All Modplan products are manufactured in our 75,000sq foot plant in Abercarn, Gwent. Our window and door systems include the VEKA Matrix 58mm profile, the VEKA Matrix 70mm profile and the VEKA Matrix FS profile and we also manufacture patio doors, PVC-u bi-folding doors and sliding sash windows. Our conservatories, pavilions and freestanding garden buildings offer a DIY option to help installers promote a new kind of product to consumers, while our unique tile-effect conservatory roof is a valuable product for any portfolio because it solves the too hot / too cold dilemma that many conservatory owners encounter.

At Modplan we firmly believe that our job is to become your valued partner and to offer a package that helps you grow your business. We do this through offering a product range that helps you create an attractive and comprehensive portfolio. We also do this with the service we offer, for example we hold daily production meetings to ensure that every order is on track. Our standard turnaround time is five days on all products with the exception of VS windows which are available in 3 weeks and conservatory roofs with a turnaround of 7 – 10 days, with a fast track service also available. We deliver in unbranded vehicles so we are discreet and low key. To assist you in your business growth we offer practical and individual marketing support to promote your business whilst ensuring we are always up to date by investing in state-of-the-art software and staff training. We work with all our customers to ensure they stay compliant with the latest legislation, including CE marking and MTCs.

In a tough market, you need to be able to trust your fabrication partner to deliver on all levels. As a trade-only supplier, you can be confident we aren't competing for your business and we are free to focus on giving you exactly what you need.
