

## **Modplan Release Veranda Roof**

11<sup>th</sup> July, 2014

**Welcome to the world of outside living with Modplan!**

Leading Network VEKA fabricator Modplan has just launched its new Vertex Veranda conservatory roof system. The new Veranda roof system brings the outdoors undercover with an overhanging roof feature available in both glass and polycarbonate options. The intelligently designed roof also incorporates the unique Vertex one piece peripheral main beam with integral gutter. Capable of unsupported spans of up to two metres, or more with a corner support, the new Veranda roof will be a welcome addition to any installers' conservatory range.

Heidi Sachs, Modplan's Managing Director, said, "The new Veranda roof system offers something very different. Available as a complete conservatory or roof only system the product allows installers to add value to their portfolio. For the consumer, the possibilities are endless and offer total flexibility for embracing outside living. Combining the Veranda roof with Modplan's extensive choice of frames, for example the new

Imagine Bifold, provides a feature the consumer can use all year round whatever the weather.”

The Veranda system is manufactured in Modplan’s dedicated roof plant. It is available in a choice of foil colours including Rosewood and Golden Oak, (all on white) or with Modplan’s dedicated spraying facilities the homeowner can choose from any RAL colour on one side only.

The Veranda system has been developed in-house at Modplan, drawing on the expertise of its research and development department. The Veranda system is a perfect example of Modplan’s technical excellence in delivering products that add value to their customer’s portfolio.

Modplan manufactures and provides a comprehensive range of products that includes three VEKA profiles, a vertical slider, composite doors, PVC-u and aluminium patio and bi-fold doors, conservatories, the Vertex solid tile-effect roof and glass and polycarbonate conservatory roofs. For more information on any of Modplan’s products, including the revolutionary Imagine Bi-Fold Door, simply Ask the Man from Modplan
