

Quality Policy Statement

The scope of Modplan Quality Management System(QMS) includes all 4 sites located In Abercarn, near Newport, South Wales, for the supply and manufacture of glazed/unglazed windows, doors and conservatory roof systems fabricated to customer requirements, and a range of Garden Buildings. It is the policy of Modplan Ltd to provide quality products and services which will provide complete customer satisfaction.

We recognise that the continued success of the organisation is dependent on a firm commitment by all employees to comply with our customer's requirements, including statutory and regulatory standards and to continually improve the overall effectiveness of the quality management system.

This is achieved by the continuous development of the Quality Management System and the training and development of all employees within the organisation to reduce levels of non conformances and customer concerns.

This quality policy shall be reviewed annually during the management review to ensure its continuous effectiveness.

The Quality Management System is structured in accordance with the requirements of

- ISO 9001: 2015 Quality Management System.
- CE Marking to EN 14351-1:2006+A2:2016 Product standard, performance characteristics. Windows and external pedestrian doorsets
- CE Marking to EN 1090-1:2009+A1:2011 Execution of steel and aluminium structures, Nordic Garden Buildings range of Pavillions, Orangeries, Greenhouses and Conservatories.
- Secure By Design SBD
- Security Certification PAS 24

The Managing Directors of Modplan Ltd authorise the publication and issue of this Quality Policy throughout the organisation and require that its provisions are mandatory.
